KOREAN INVESTMENT, AMERICAN JOBS

MAKE KOREA-US ALLIANCE GREAT AGAIN

Korean Investment Creates American Jobs—
and Strengthens American Communities.

—— 14 State Stories of Jobs, Industry, and Shared Prosperity ——

1 CREATING AMERICAN JOBS—INCLUDING FOR VETERANS

Korean-affiliated businesses employ American workers across manufacturing, engineering, technology, logistics, research, finance, and professional services. They also help transitioning and former U.S. service members apply their discipline, experience, and leadership to stable civilian careers.

2 INVESTING IN KEY U.S. INDUSTRIES AND COMMUNITIES

From advanced manufacturing and batteries to semiconductors, clean energy, and biohealth, Korean companies invest in America—expanding capacity, strengthening supply chains, and revitalizing communities in every region.

3 POWERING INNOVATION AND COMPETITIVENESS

Korean investment accelerates innovation and supports the U.S. as a global leader in critical technologies—driving productivity, high-quality jobs, and long-term economic growth.

4 STRENGTHENING THE ALLIANCE THROUGH ECONOMIC PARTNERSHIP

Our economic partnership deepens trust, creates shared prosperity, and reinforces the Korea-U.S. Alliance—promoting peace, security, and stability in the Indo-Pacific and beyond.

5 A PARTNERSHIP BUILT FOR THE FUTURE

Korean investment in America is more than business—it's a long-term commitment to our shared future and the next generation.

STRONGER TOGETHER
KOREA AND THE UNITED STATES
BUILDING JOBS. STRENGTHENING COMMUNITIES. SHAPING OUR FUTURE.

South Korea creates more US jobs via direct investment than any other country

Posted on : 2024-06-28 17:40 KST Modified on : 2024-06-09 17:00 KST

 Add as preferred source on Google

On average, South Korea created an average of 393 jobs for each direct investment in the US

Share of U.S. Jobs Created by Reshoring + Direct Investment

Source: U.S. nonprofit Reshoring Initiative

Total jobs created: 182,880

Reshoring: 108,351 | Direct investment: 74,529

First half of 2023 | Unit: %

South Korean companies accounted for the largest share of jobs created by foreign companies through direct investment in the US market. As global supply chain reorganization and accelerated overseas investment have significantly weakened the spillover effect of South Korea's booming semiconductor exports on the domestic market, the decoupling between Korea's domestic economy and the US economy is becoming more pronounced.

According to a report on trends in US reshoring announcements and foreign direct investment in the first half of 2023 by the Reshoring initiative, a nonprofit lobbying organization in the US, a total of 182,800 new jobs were created in the US market in the first half of 2023 (108,300 from reshoring and 74,500 from direct investment). There was a combined total of 807 instances of reshoring and direct investment.

By country, job contribution rates were 17% for South Korea, 15% for the UK, 11% for Germany, 9% for China, and 9% for Japan.

On average, South Korea created an average of 393 jobs for each direct investment in the US. Among the 50 US states, Kentucky (14%) and Georgia (10%) accounted for the largest number of jobs through reshoring and FDI, with South Korean companies creating many jobs in Kentucky through the Ford/SK Blue Oval partnership, and Georgia through Hyundai Motor Company.

The number of jobs attributed to reshoring and FDI cases in the US has been growing rapidly, with 98,700 jobs in 2019, 156,300 in 2020, 244,800 in 2021, 343,700 in 2022, and 365,700 projected jobs in 2023.

Map of the United States showing the locations of various South Korean companies. The map is color-coded by region, with shades of blue and green. Companies are labeled with their names and logos. A legend on the right lists companies with callouts to their locations: NH (Dongjin Semichem), MA (LIG Nex1), RI (IDP), CT (Hanwha Aerospace), NJ (Hanwha), DE (GS Global), MD (LG Electronics). Insets show Alaska (SSANGYONG) and Hawaii (Hanwha E&C).

33,600+ JOBS

new jobs expected from state-supported Korean projects

KOREAN INVESTMENT, AMERICAN JOBS

KOREAN INVESTMENT AT WORK IN GEORGIA

Accelerating America's EV and Battery Economy

Hyundai Motor Group Metaplant America (HMGMA) in Georgia

EVs AND BATTERIES

Korean investment is accelerating Georgia's leadership in electric vehicles and batteries—driving innovation, sustainability, and long-term economic growth.

INVESTMENT FOOTPRINT

\$24B

State-supported Korean company investment over the last 10 years

KEY TAKEAWAY

HMG's Metaplant and battery joint ventures anchor Georgia's EV manufacturing base, support new jobs, and expand local supplier networks.

WHY IT MATTERS

For Georgia workers and communities, Korean investment represents a long-term commitment to American manufacturing. State-supported projects are expected to create more than 33,600 jobs, expand domestic EV and battery capacity, and strengthen local supplier networks. By linking vehicles, batteries, materials, logistics, and workforce development, Korean companies are helping Georgia compete in industries central to America's economic future.

INVESTMENT FOOTPRINT

\$2.68B

*Korean net investment balance in
Illinois, March 2026*

KEY TAKEAWAY

Korean investment supports skilled jobs and strengthens Illinois' logistics, manufacturing, and life-sciences supply chains.

WHY IT MATTERS

For Illinois workers and communities, Korean investment means jobs across a diverse range of industries, stronger links to international markets, and additional demand for local services and suppliers. By investing in logistics, aviation, machinery, mobility, biotechnology, and business operations, Korean companies reinforce Illinois' position as one of America's leading centers of transportation, industry, and commerce.

Sources: MOTIR/KOTRA Illinois State Profile; D&B Hoovers, February 2026; MOTIR investment data, March 2026. Employment and investment figures are approximate and may reflect different definitions and reporting periods.

AUTOMOTIVE MANUFACTURING

Korean investment in Alabama is concentrated in automotive manufacturing and supplier industries, including vehicle components, mobility systems, steel, climate-control systems, and production equipment.

INVESTMENT FOOTPRINT

\$9.6B

*Cumulative investment by
Korean companies in Alabama,
1999–2024*

KEY TAKEAWAY

Korean manufacturers anchor Alabama's automotive supply chain, strengthening local supplier networks, workforce development, and advanced manufacturing capabilities.

WHY IT MATTERS

For Alabama workers and communities, Korean investment means thousands of jobs, valuable technical skills, stronger local suppliers, and a durable foundation for advanced manufacturing. By producing vehicles and components in the United States, Korean companies help Alabama compete in a major global industry.

Sources MOTIR/KOTRA Alabama State Profile; Made in Alabama (2025); Hyundai Motor Manufacturing Alabama (HMMA); investments and employment figures are approximate and may reflect the definitions and reporting periods used by the data sources.

KOREAN INVESTMENT, AMERICAN JOBS

OPPORTUNITIES FOR VETERANS, TALENT FOR COMPANIES

Introducing the United States Forces Korea Veterans Employment Platform

The Korea Chamber of Commerce and Industry (KCCI), in partnership with the Korea-U.S. Alliance Foundation (KUSAF), established an online job platform to connect former and soon-to-transition U.S. Forces Korea personnel with Korean companies operating in the United States. Employers can post job openings, while eligible candidates can submit résumés and apply directly through the platform.

KCCI Executive Vice Chairman Park Il-joon, KUSAF President Leem Ho-young, Korea Defense Veterans Association Chairman and former USFK Commander Robert Abrams, and other representatives attend the KCCI-KUSAF MOU signing ceremony in Seoul on September 17, 2025. The agreement supports employment opportunities for USFK veterans and promotes Korea-U.S. cooperation.

A PRACTICAL BRIDGE TO CIVILIAN CAREERS

The platform helps veterans translate responsibility, adaptability, technical experience, and familiarity with Korean culture into civilian employment opportunities.

VALUABLE TALENT FOR EMPLOYERS

Korean companies in the United States gain access to experienced candidates while expanding local employment and strengthening their commitment to veterans.

A WIN-WIN PARTNERSHIP

The initiative is designed to provide quality career opportunities for veterans and help participating companies recruit dependable, motivated talent.

TURN SERVICE IN KOREA INTO YOUR NEXT OPPORTUNITY
VISIT WWW.USFKJOBS.COM

KOREAN INVESTMENT, AMERICAN JOBS

ONE PLATFORM, TWO PATHWAYS

Career opportunities for veterans. Experienced talent for employers.

HOW THE PLATFORM WORKS

FOR VETERANS

- Sign up and log in
- Browse job postings
- Submit résumés and apply directly
- View application history

The platform is intended for soldiers who have completed or will soon complete their service in Korea.

FOR EMPLOYERS

- Register company information
- Post job openings
- Review applications
- Interview and hire candidates

Participating Korean companies can connect with candidates known for responsibility, adaptability, and familiarity with Korean culture.

POTENTIAL EMPLOYER BENEFITS

Eligible U.S. employers may qualify for federal or state incentives when hiring veterans. The Work Opportunity Tax Credit may provide up to \$9,600 per eligible veteran hired, subject to applicable requirements and certification.
